

Easy Ladder

Open your pool to everyone! Swimmers of all types benefit from the innovative design of the Easy Ladder® - elderly, arthritic, expectant mothers, young learners or anyone who is uncomfortable with or has difficulty using traditional vertical swimming pool ladders.

The Easy Ladder offers un-matched ease of use requiring no deck modifications or alterations to install. The Easy Ladder can be placed in and out of your pool as many times as needed- safely and easily by its patented dolly system.

Heavy duty type 304 stainless steel hand rails, moulded in non-slip foot treads and durable fibreglass construction make the Easy Ladder your long term solution to your swimming pool access problems.

Features:

- Makes your pool more accessible
- Can be fitted to almost any in-ground pool
- Deck modifications or anchoring are NOT REQUIRED
- Easy to pull out of the pool and place back in when needed
- Can be installed in the corner or on the side of your pool
- SWL 130kg

Specifications:

- SWL 130kg
- Available in three sizes for pool depths up to 2.1m (approximately)
- Available in 2 standard colours (safety yellow or blue), other colours on request
